## Expert Opinions

"Internet porn is probably the biggest miseducation system we can devise in terms of sexuality, misuse of women."

—*Dr. Mary Anne Layden*

## Truth-in-Porn.com Launched

The Truth in Porn website ([www.truthinporn.com](http://www.truthinporn.com)) is intended to be a point of education for the general public, similar to what The Truth is for smoking.

The site offers statistics along with compelling and thought provoking advertisements created to get people thinking: what are the effects of Internet pornography?

The initial launch of the website includes all the submissions for the Truth-in-Porn contest that was recently held by The CP80 Foundation.

We hope to continually add to the site by offering additional contests and simply offering a high-profile medium for individuals to have their work displayed.

## Generation XXX Imprint Announced

The solution to Internet pornography starts with education. People need to understand what it is and why it can be so dangerous, to you, your children, your family and your community.

The XXX Generation imprint will feature several books and pamphlets that are a collection of studies, research and essays concerning Internet pornography. These publications will be made available from the CP80 website.
