Expert Opinions

"... I can tell you that pornography—especially Internet pornography with its violent, demeaning, or highly explicit messages—is damaging, not only for youths, but for many adults as well."

Letters to The Editor

Here's an easy opportunity for everyone to help. [Go to google.com](#) and enter your city, local newspaper, or television station and "letters to the editor". You should get several responses that will lead to websites where you can submit a letter to the editor. It may take a little detective work, but you

should eventually find a useful link.

Type a letter or use the prewritten letter below (feel free to modify it in any way) and send it.

You may get you letter in print, on the radio or on television, allowing thousands and possibly tens of thousands of people to learn about the CP80 Internet Channel Initiative:

Dear Editor:

Internet pornography is destroying the youth of this country. It's not just nudity that children are accesses on the Internet, but sexual images that are so perverse and extreme that they can affect a child—and an adult—for the rest of his or her life.

Internet pornography has become so prevalent on the Web that current filtering solutions don't work.

We need a solution that does work. I like the CP80 Internet Channel Initiative. It creates a new range of adult Internet channels for pornography. With content categorized into channels, I can choose whether or not I want to access pornography—a choice that doesn't exist today.
