Utah Considers Resolution Against Internet Pornography--Your Phone Call Could Mean Success

The Utah State Legislature is considering a proposal, [H.C.R. 3: Resolution Urging Congress to Stop Interent Pornography to Children and Employees](#), a state resolution that would put the US Government on notice that the people of the State of Utah want something done about Internet pornography.

The resolution will be discussed friday, January 19th, at 9 a.m. **So now is your chance to be heard!**

Please, take the time to contact--by phone--your local congressmen and senators and let them know you support the resolution and you support the CP80 Internet Channel Initiative. And let them know today.

A list of names and phone numbers have been added to the bottom of this message. Please call one or more of the representatives who will be deciding on whether or not Utah should send this resolution. And please forward this email to your friends and family and urge them to do the same.

Passing a state resolution not only shows the rest of the world that people care, but it will inspire other states to do the same.

Thank you for your continued support.
