Submit a Resolution in Your State

Utah's non-binding resolution requesting that the US government do something to protect children and businesses from Internet pornography is gaining steam and moving forward.

We are looking for individuals from other states that would be willing to submit a similar resolution in their own states.

The effort is minimal, but the result will be overwhelming.

All that we need you to do is take a copy of the resolution to a sympathetic state representative or senator who will sponsor it. It is a non-binding resolution, so it is not a law. It is only saying that "we", the citizens of your state, are tired of all the unregulated pornography on the Internet and want the federal government to do something.

You can find the resolution here:
